END OF YEAR PROJECTIONS

Starting each September, the end-of-year projection process begins. With the implementation of Workday, this process and its reports will undergo significant changes. The goal is to calculate the projected remaining balance by taking the current budget, subtracting all anticipated expenses, and estimating the final numbers.

To achieve this pre-Workday, the following reports are pulled from BoB:

- Login to reports.byu.edu
- Click on "Financial Systems Information"
 - o Click on "University Financial Reports"
 - o Click on "Budget Expense (All operating units except 12 & 15)"

The screenshot shows a form for selecting report parameters. The fields are as follows:

- Fiscal Year:** A text input field.
- Through Accounting Period:** A text input field.
- Department(s): (optional)** A text input field.
- Operating Unit(s): (optional)** A text input field with a small icon to its right.
- Starting Operating Unit: (optional)** A text input field.
- Ending Operating Unit: (optional)** A text input field.
- Account(s): (optional)** A text input field.
- Starting Account: (optional)** A text input field.
- Ending Account: (optional)** A text input field.
- Class(s): (optional)** A text input field.
- Starting Class: (optional)** A text input field.
- Ending Class: (optional)** A text input field.
- Journal Source(s): (optional)** A text input field.
- Controller NetId: (optional)** A text input field.

- o Complete the following fields:
 - Fiscal Year = current year
 - Through Accounting Period=month you want to view (1-12)
 - Operating Unit(s) = enter "11366000"
 - Press "Enter"
- o This displays a lot budget and transactional information.
 - "Budget Activity" column displays any budget that has been deposited into the account
 - "Month Activity" column displays any activity for the current month
 - "YTD or PTD Activity" column displays the total year-to-date activity (or period-to-date activity)
 - "Purchase Commitments" column displays any funds that have been allocated from this account for a future purchase.
 - "Balance Available" column displays the remaining balance available for each line item
 - "% Available" column displays the overall % of funds remaining in the account.
- o Link to the EOY document

ADDING AN EXPERIENCE IN ELMS

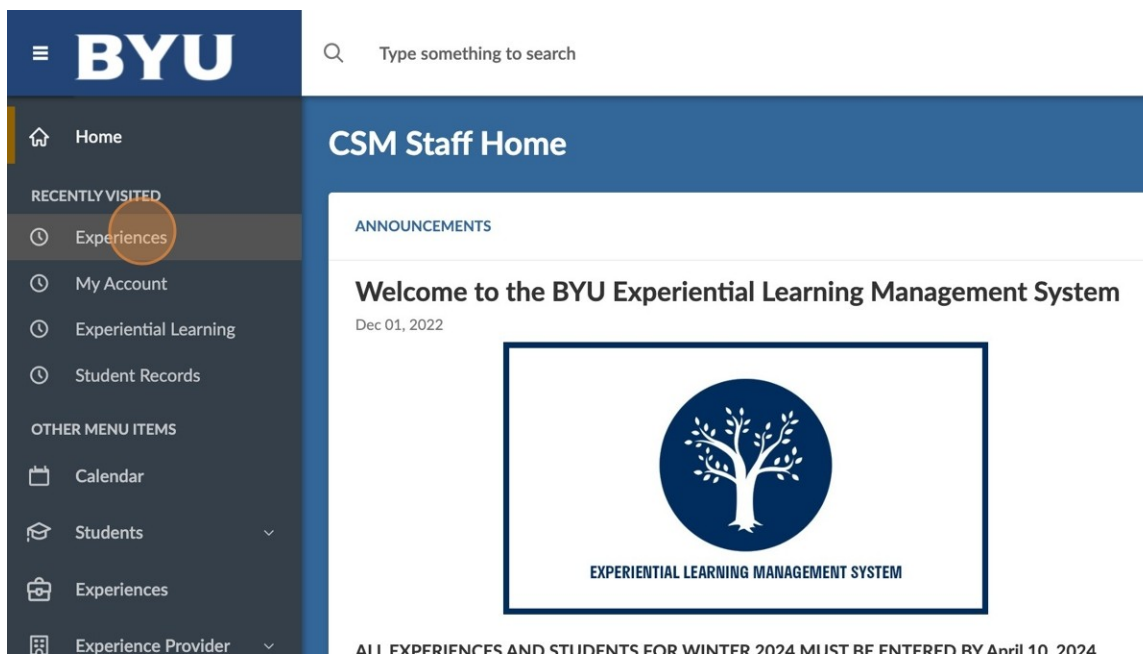

1. Navigate to <https://experience.byu.edu/>
2. Click "ELMS Login"

3. Login to the ELMS platform with your username and password.

Tip! To grant access to ELMS send an email to experience@byu.edu. (Students can also be granted access to ELMS to assist with the data entry)

4. Click "Experiences"

5. Click "Add New"

MONTH-END FINANCIAL REVIEW

At the end of each month a report is sent with an overview of each account.

It is important to reconcile the month to ensure all purchases are accurately accounted for and in the correct account buckets as well as prepare any necessary journal entries to correct any errors.

It is easiest to do this monthly when you are familiar with the charges/expenses. It will also allow your accounts to be accurate as you review them in the future.

It is also important to review the faculty accounts to provide insight to any low balances and discuss with the department chair any recommendations for the accounts.

To do this you will want to view the report in Workday which will allow you to see all expenses for the cost center.

Previously, these reports are input into the Budget Spreadsheet, found here:

CLASS SCHEDULING

CREATING THE SCHEDULE

Visit registrar.byu.edu → Click on "Faculty & Staff" → Click on "Creating the Schedule"

Scheduling Timeline

Procedure	Fall	Winter	Spring/Summer
Priority 1 Scheduling	1st Wednesday of December	1st Wednesday of April	1st Wednesday of August
Priority 2 Scheduling	2nd Wednesday of February	3rd Wednesday of June	3rd Wednesday of October
Limited Changes Begin	1st Wednesday of March	2nd Wednesday of July	2nd Wednesday of November
Schedule Published (Registration Carts Open)	April 1	August 1	December 1
Registration Begins	1st Monday of June	3rd Monday of October	March 1

Above you'll find the list of important dates as it pertains to scheduling.

As you begin preparing for the new schedule to be made available, ensure you discuss with your department chair the scheduling needs of the department.

- Are there any new sections/course planned to be taught?
- Are there any new conflicts that have arisen since the previous semester or does a class need to be moved to a different classroom? Day? Time?
- Have there been any teaching load changes and will any instructors need to be modified?

Class Scheduling rolls over the previous year's class schedule as a starting point for departments.

To access the class scheduling site visit coursedog.byu.edu. Login with the username and password created from the registrar/class scheduling office.

There are three different scheduling priorities when working on the class schedules.

1. Priority 1 - Units may schedule classes in their priority level 1 rooms during this time period.
2. Priority 2 - Units may schedule classes in their priority level 1 and 2 rooms during this time period.
3. Limited Change - Units may request changes to the class schedule.

Typically, we work to complete all class scheduling within the "Priority 1" timeline.

It is important to complete the schedule as soon as possible, so that students can view the schedule and make necessary plans for their personal scheduling.

If changes need to be made after registration begins, please keep the following in mind:

1. If any number of students have already registered for the class, you will need to cancel the course and recreate the course with a new section number. The only time a class does not need to be cancelled, is if you are changing the instructor of the course. All students enrolled in the course must be notified that the course will be cancelled.
2. If changing the time or day of a class, ensure there is a room available during the desired time. Scheduling late is extremely difficult to find available rooms, especially during peak hours.

TIME IN CLASS

Use this table to help determine the amount of time in class per credit hour (or curriculum approved lab/lecture hours).

CREDIT HOURS vs CLASS TIME (Includes a 10-minute break between classes)					
TERM CLASSES					
Credits	1x/week	2x/week	3x/week	4x/week	5x/week
1.0	1 hr 50 min	50 min			
2.0	3 hr 50 min	1 hr 50 min		50 min	
3.0	5 hr 50 min	2 hr 50 min	1 hr 50 min	1 hr 15 min	
4.0	7 hr 50 min	3 hr 50 min		1 hr 50 min	1 hr 50 min (language classes)
SEMESTER CLASSES					
Credits	1x/week	2x/week	3x/week	4x/week	5x/week
1.0	50 min				
2.0	1 hr 50 min	50 min			
3.0	2 hr 50 min	1 hr 15 min	50 min		
4.0	3 hr 50 min	1 hr 50 min		50 min	50 min (language classes)

This table reflects the number of hours in class are required based on the number of credit hours for the course. This is also listed by term or semester (as times will vary due to length of term/semester)

When schedule classes, we use "Standard Meeting Patterns" to determine the length of each course. At BYU Marriott, our classes are 75 minutes long, and are two days per week. Below you'll find the meeting patterns for both day and evening courses.

DAY CLASS STANDARD MEETING PATTERNS														
CLASS TIME	8:00 AM	9:00 AM	10:00 AM	11:00 AM	12:00 PM	1:00 PM	2:00 PM	3:00 PM	4:00 PM	5:00 PM	6:00 PM	7:00 PM	8:00 PM	9:00 PM
													(No classes past 7 PM on Mondays)	
50 min	8:00-8:50	9:00-9:50	10:00-10:50	11:00-11:50 (T Devotional)	12:00-12:50	1:00-1:50	2:00-2:50	3:00-3:50	4:00-4:50	5:00-5:50	6:00-6:50	7:00-7:50	8:00-8:50	9:00-9:50
75 min	8:00-9:15	9:30-10:45		11:00-12:15 (T Devotional)	12:30-1:45		2:00-3:15	3:30-4:45		5:00-6:15	6:30-7:45		8:00-9:15	
110 min	8:00-9:50	10:00-11:50 (T Devotional)		12:00-1:50		2:00-3:50		4:00-5:50		6:00-7:50		8:00-9:50		
170 min	8:00-10:50	9:00-10:50	11:00-12:50 (T Devotional)	1:00-2:50	3:00-4:50	5:00-6:50	7:00-8:50							
(also longer times that begin on the hour and end on :50)	9:00-11:50 (T Devotional)		12:00-2:50	3:00-5:50	6:00-8:50									
		10:00-12:50 (T Devotional)		1:00-3:50	4:00-6:50	7:00-9:50								

EVENING CLASS STANDARD MEETING PATTERNS						
CLASS TIME	4:00 PM	5:00 PM	6:00 PM	7:00 PM (No classes past 7 PM on Mondays)	8:00 PM	9:00 PM
50 min	4:00-4:50	5:30-6:20	7:00-7:50	8:30-9:20		
75 min	4:00-5:15	5:30-6:45	7:00-8:15	8:30-9:45		
110 min (1h 50m)	4:00-5:50	5:00-6:50	6:00-7:50	7:00-8:50	8:00-9:50	
170 min (2h 50m)	4:00-6:50	5:00-7:50	6:00-8:50	7:00-9:50		
230 min (3h 50m)	4:00-7:50	5:00-8:50	6:00-9:50			

CREDIT HOURS vs CLASS TIME (Includes a 10-minute break between classes)					
TERM CLASSES					
Credits	1x/week	2x/week	3x/week	4x/week	5x/week
1.0	1 hr 50 min	50 min			
2.0	3 hr 50 min	1 hr 50 min		50 min	
3.0	5 hr 50 min	2 hr 50 min	1 hr 50 min	1 hr 15 min	
4.0	7 hr 50 min	3 hr 50 min		1 hr 50 min	1 hr 50 min (language classes)
SEMESTER CLASSES					
Credits	1x/week	2x/week	3x/week	4x/week	5x/week
1.0	50 min				
2.0	1 hr 50 min	50 min			
3.0	2 hr 50 min	1 hr 15 min	50 min		
4.0	3 hr 50 min	1 hr 50 min		50 min	50 min (language classes)

Please note that evening school courses begin at 4pm, however, no classes will begin at 5pm. The only available start time for evening school courses begin at 5:30pm.

DETERMINING ADJUNCT NEEDS

Once the schedule has been made, download your section report.

Visit <https://app.coursedog.com/#/dashboard/home> → Click on "Reports" from left menu → Click on "Export" → Click on "Course Section List" → Click "Download" (on the right hand side)

This will download a report of all the sections scheduled to be taught and will include a lot of information regarding each course (Date, time, instructor, max enrollment, enrollment, semester, etc)

Open the report.

We want to list courses where we typically hire adjuncts or we have a class without an instructor – which indicates a potential new hire.

On the whiteboard, I list IS 110, IS 201, and IS 590R courses, as well as any courses without an instructor or a previous adjunct we need to verify will continue to teach.

When verifying, send an email to the "Supervisor" on the course (Typically the course coordinator [IS 110: Tanner Skousen, IS 120: Steve Liddle, IS 201: James Gaskin, IS 302 Nathan Twyman, IS 303 Greg Anderson, IS 590R Nathan Twyman.]

ADDING AN ADJUNCT TO THE SCHEDULE

To list an adjunct as an instructor on the course schedule, you'll need to first add them as an instructor in CourseDog.

After logging into CourseDog, click on "Add Instructor" on the top right of the screen.

This will open a new page.

Enter the BYUID in the "Last Name/Identifier" field. It is best to use the BYUID to ensure you have the correct individual.

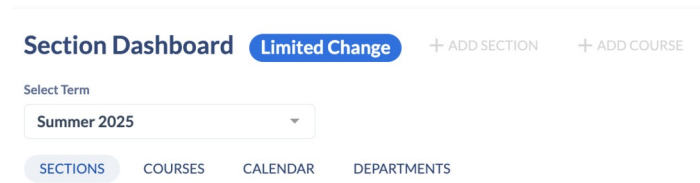

The instructor's name will display below the search field.

Select "Add Instructor" on the right of the individual's information.

Click back to your "CourseDog" tab and now you will have access to the instructor just added.

Click on "Information Systems"

Ensure you are working in the correct term. You can select the correct term using the "Select Term" drop-down.

Once you've selected the desired term, it will load the current sections assigned. To update an instructor, you can either search for the course in the search bar, or scroll and/or navigate to the course needing to be edited.

When you mouse over the course, it will highlight the course. Click on it to open.

Scroll down to the "Instructors & Roles" section. During the "Limited Change" period, most items cannot be edited, however, you can change an instructor anytime.

Click on the "+ Instructor"

In the search bar, start typing the name of the faculty member/adjunct.

Click on their name. This will bring you back to the section editor.

You'll notice an error message, don't fret, it's time to update the instructor roles.

Click on "Set Instructor Roles & Details"

Click on the instructor's name, and select "Primary = for main instructor", "Supervisor = if you're adding an adjunct/student employee and you're adding the course coordinator", and "Team = If you have an instructor who is team/co-teaching the course"

You will always add a "Supervisor" when adding an adjunct instructor. The "Supervisor" will always be the course coordinator.

OTHER THINGS TO CONSIDER DURING CLASS SCHEDULING

CURRICULUM CHANGES

When a change is made that is sent through the department, college, and university curriculum committees, the courses with changes need to be modified. To accommodate the change, the registrar's office/class scheduling will remove the class from the class schedule.

This can happen randomly during the scheduling process. To prepare for these changes, it is necessary to be aware of curriculum changes that are forthcoming. Make a list of the courses and then input a place holder on the class schedule.

The best way to do this is to use the class IS590R and in the section header input "This is a placeholder for IS [Course Number].

Once the courses have been fully approved, you'll be able to add the course back in and delete the place holder.

Real Estate within the TNRB is very precious and if you don't put in a placeholder, the room will be taken for a different course.

CONFERENCE ROOM/MSB SCHEDULING

ROOM SCHEDULING

CAMPUS SCHEDULING

Unscheduled academic classrooms may be requested through Class Scheduling or Campus Scheduling, depending on the circumstances.

- Beginning the 3rd day of class (one week), full-semester/term TA help & review sections can be scheduled through Class Scheduling at classscheduling@byu.edu.
- After the add/drop deadline, all TA help and review sections must be scheduled through Campus Scheduling (801-422-3134).
- Any non-academic events must be scheduled through Campus Scheduling after the add/drop deadline.

MSB HOSTING ROOM SCHEDULING

CONFERENCE ROOM SCHEDULING

IS CORE ORIENTATION

BSIS ADMISSIONS

STUDENT HIRING

STUDENT WAGES

TAs and RAs are paid the same using the following schedule:

UNDERGRADUATES

- Start at \$15/hr (with a .25 raise each semester)
- The wage will cap at \$16/hr

GRADUATE STUDENTS PAYING GRADUATE TUITION

- If continuing to work in a previous capacity in the department:
- **\$1 raise from what they were being paid.**
- Wage will cap at \$1 from where they started.

If newly hired:

- Start at **\$16/hr** (with \$.25 raise each semester)
- The wage will **cap at \$16/hr**
- **IMPORTANT:** Students CANNOT begin working until you have received the student's hiring clearance.
- Banking or saving hours of any kind is not permitted, and we have been notified it is considered FRAUD. Please do not encourage students to begin working without the proper clearance.

HIRING A STUDENT

We will be starting a new process with the implementation of Workday. Although all faculty will hire their own students, we will require pre-approval for the hire.

The process will work as follows:

1. Faculty will request a student hire using a Qualtrics survey
2. The survey will be used to verify
 - a. What is the pay level for the employee
 - b. How many hours a week is the employee eligible to work
3. An email is provided back to the faculty member with the verified information for hiring.

ADJUNCT HIRING

Adjuncts are hired as needed, however there is a process, and it requires some time to complete. Adjuncts require department chair approval.

JOB POSTING

Each time we would like to hire a new adjunct faculty, we need to post a new position through Workday. Laura Muhlestein will assist with the creation of the position and post the job. You will be responsible to create the Job Requisition. This is a new process and Laura will assist as needed moving forward.

TIMELINE

The posting must be posted for a minimum of 2 weeks. Once the posting has met the posting requirement, applicants are reviewed by the committee. Once the selections are made, they are sent for interview clearance. This process can take up to two weeks.

Once we receive the clearance to interview, we are allowed to interview the candidates and if, at that time, we want to hire the individual, we have the clearance to do so.

DOS AND DON'TS

Prior to interviewing candidates, be sure to review proper interview techniques. It is important to understand the correct questions to ask and especially questions that *shouldn't* be asked when talking to a candidate.

Candidates should not be promised or guaranteed to teach. We cannot offer a position until we have received clearance. Clearance may be denied for a variety of reasons; don't assume that it will be granted.

A few things to note:

1. Discuss potential adjunct needs ASAP after completing the schedule. This will ensure there is enough time to post, interview, and complete the hire.
2. Adjunct pay is calculated using the "Adjunct Wage Projection" spreadsheet found on Box in the IS Confidential folder, under Financial Items, and then under Adjunct Reports, and in the current year folder (for the semester you're hiring for)
3. Sara Hubbs or Lisa Nitchman can assist you in completing this report (It is due to the Dean's office after the add/drop deadline each semester/term)

FACULTY HIRING

Faculty hiring will be new in Workday and will follow a new process. Laura Muhlstein will work with you on this and will provide more training when this need arises.

STUDENT ASSISTANT MANAGEMENT

The IS department has been fortunate to have amazing students who work here. There are currently 4 students who work in the main office. Their roles consist of:

- Finance/Human Resources
- Social Media/Communications
- Events
- Advising

Although the students have an area of focus, they are not limited to that area. All students work in more of a pool and can be used for anything and by anyone. No one has a specific student that is their assigned student.

We use MS Teams to communicate within the office. Within the wider department, Slack is used.

MS Teams offers a few functionalities that work well with our group. They are:

TASKS

- a. Tasks provides the ability to list what they are working on, will be working, or want to work on in the future. It provides a way for leadership to add tasks and also a way to track how things are going.

SHIFTS

- b. The "Shifts" application in MS Teams allows us to communicate when a student is scheduled to work and/or when they have requested a day off.
- c. The ideal schedule is that we have at least one student at the front desk during the 8am – 5pm hours. Typically students work a max of 15 hours per week. (3 hour shifts – 5 days a week)
 - i. Shift 1: 8am – 11am
 - ii. Shift 2: 11am – 2pm
 - iii. Shift 3: 2pm – 5pm
- d. There are times when a student's schedule will not permit these specific hours and we do our best to accommodate and yet still provide the best coverage for the office.

CHAT

- e. MS Teams is a great way to keep all team members in the loop of various things that come up.

STUDENT STAFF MEETING

Once a month we hold a Student Staff meeting. Currently this has been scheduled to be the last Thursday of the month at 11am. This allows all to communicate upcoming events any upcoming needs of the students. Also, it provides the ability to highlight a training area. And lastly, it provides the students time to meet—which some students do not overlap in their schedules. This helps build comradery within the department student staff.

Usually, a small treat is provided.

IS PROGRAMS AND ENROLLMENT

Currently, the IS Department has 19 Faculty and 3 Staff.

We offer two programs with a total student base of around 600 students throughout all programs.

1. BSIS: Bachelors of Science in Information Systems
 - a. We typically accept a cohort of 240 students each year.
2. MISM: Masters of Information Systems Management
 - a. The masters program allows students to graduate with both their undergraduate and graduate degrees in only one extra year.
 - b. We typically accept a cohort of 100 MISM students each year
 - i. This consists of "integrated students" (current students who apply to the program after completing their IS Core year)
 - ii. We accept a few "non-integrated students each year (students who are coming back to complete their masters degree whether they received their undergraduate from BYU or somewhere else.

RANK & STATUS PROCEDURES

Information regarding Rank & Status packets are found in a Box folder titled "ADF – RAS – Candidate Resources"

This folder contains the R&S packet as well as the associated deadlines.

WHAT IS RANK AND STATUS

A faculty member's years of service prior to being granted CFS are probationary. To receive CFS, faculty members must pass two formal university reviews.

During winter semester of the third year, an *initial* review will assess a faculty member's progress and determine whether he or she will advance to CFS candidacy. If the faculty member continues to meet expectations after passing the initial review, they will undergo a *final* review to determine whether CFS will be granted.

The final review will begin during fall semester and typically occurs during the faculty member's the sixth year.

To receive CFS, professorial faculty members must clearly demonstrate in their final review that they have met standards in specific areas.

PEER EVALUATIONS

Each year, the department chair will assign different faculty to review other faculty's courses. There are two different types of evaluations a "formative evaluation" and a "summative" evaluation.

Rank & Status packets require a minimum of two (2) summative evaluations.

The Business Manager reviews the Rank & Status document for completeness and will add in the "Peer Evaluations" as well as the "Student Ratings"

RANK & STATUS PACKET

Upon receipt of the packet from the faculty candidate, save the completed Rank & Status packet here:

In the Box Folder MSB Information Systems → IS Confidential → Rank & Status → Promotion-CFS Reviews → [Current Year] folder

In the Box Folder MSB Information Systems → IS Confidential → Rank & Status you'll find a folder "Department Review". This is where a copy of the completed packet will be put for the faculty to review.

In the Box Folder MSB Information Systems → IS Confidential → Rank & Status → Promotion-CFS Reviews you'll find a folder "Committee Review". This is where a copy of the completed packet will be put for the Rank & Status Committee to access for their review.

A faculty meeting will take place where the department faculty will vote on the Rank & Status candidates.

ASI PRODUCTIVITY REPORTS

Annual Stewardship Interviews (ASI) take place annually in January and February. To prepare for these interviews there are a few things that need to be completed.

PRODUCTIVITY REPORTS

Productivity reports provide each faculty member the opportunity to report on what they've accomplished over the past year. We prepare a document (excel document) where we update their course evaluations and prepare the other sheets to be completed by each faculty which is used by the department chair to complete their interview.

PREPARING THE PRODUCTIVITY REPORT

Open Box → MSB Information Systems → IS Confidential → Annual Stewardship Interviews → 1-Productivity Reports

Here you'll find a folder for each faculty member. Inside the folder you'll find their productivity report. This is last year's productivity report. It will need to be updated with 2024's information.

Once the file has been completely updated, the file name should be renamed to reflect the current year (2024). Then the file should be shared with the specific faculty member who will then add their other updated information and include their updated CV and DBW Accountability Plan.

ASI INTERVIEW SCHEDULE

Work with the department chair to solidify what dates they would like to conduct the Annual Stewardship Interviews (ASIs). Previously, we have used signup.com (not signup genius), to schedule these interviews.

Signup.com allows you to set up shifts and have individuals easily sign up for specific time slots. It also allows you to follow up and send reminders to the individuals.

Any tool can be used, however, once a faculty has signed up for a time, the interview is put on a specific Outlook Calendar (I've made one called ASI Calendar). When setting up the appointment, I list both the department chair and the faculty member as attendees so it will show up on their individual calendars.

MISM GRADUATION RECEPTION

Each year, the department hosts a graduation reception for all students who are graduating from either the BSIS or MISM programs.

Graduation begins on the Friday after commencement, and BYU Marriott graduate programs (and BSIS) are held at 5pm on that day. Because of this start time, we offer this reception from 2pm – 3:30pm (ish). There is a short program where some awards are handed out and we like to gather the students for a cohort photo prior to their departure.

SOCIAL MEDIA/DEPARTMENT COMMUNICATIONS

Department communication is extremely valuable on several fronts. First, we want to make sure our current students know what is happening on campus and what events are available for them to attend. Second, we want our Alumni to also know what is happening within the program and learn about the great things that continue to happen.

Social Media (Instagram, Facebook, X (formerly Twitter), and LinkedIn) are the most effective ways we've found to reach these groups of individuals. Our goal is to disseminate information, while also increasing our following with current students, Alumni, and prospective students.

GRO GROUPS (ACCESS CONTROL)

There are two rooms we control with access control. BYU uses a system call GRO to manage this.

1. Navigate to <https://gro.byu.edu/groups-i-administer>
2. GRO Groups are where we control access to our main office as well as the IS Lab (W328). We have two different GRO groups for the IS Office (738 TNRB).
 - The first group is for access to the main office. This access is given to all department members.
 - The second group is for individuals who work in the IS Office (738) and provide a double tap functionality allowing individuals to lock the door.

- The office doors automatically lock at 5pm, however if no one is in the office (and not just running a quick errand), the office door is best to be locked. This is where the "double tap" is essential. Individuals must be put into both GRO groups.
- If you have questions regarding setting up access control schedules or other related questions, contact Paul Slagowski (801) 422-1309 or send an email to paul_slagowski@byu.edu
After logging into the GRO groups page, select "Groups I Administer." This will pull up all of the groups you have access to.

3. To view the individual GRO groups, click on the "Group Name"

6. If you have a large number of individuals, you can add multiple member at one time. To do this, you will want to create a list in Excel with the BYUID numbers of all the individuals you'd like to add.

This typically occurs at the beginning of a semester when needing to add students to the IS Lab (W328). To do this delete all students from the group (TNRB W328 Computer Lab). Then download the student list from the Marriott School student database and copy the BYUIDs from the list. I typically will each class year one at a time to ensure I've added all the necessary students. Adding students in this way allows you to add 600+ students with only a copy/past function.

CELL PHONE ADMIN

<https://byucellphones.byu.edu/account>

Here is where you will login to administer the BYU Cell Phone accounts. Here you can view billing information and manage the account.

When a request for new equipment is made, an email is sent to the plan manager for approval. The process we follow once this is received is:

- 1) Verify with department chair that purchase is approved.
 - a. Typically, documentation of justification is required and should be saved in box (MSB IS Confidential→Financial Items→Cell Phone Purchase Justification folder

ANNUAL RESOURCE PLANNING

Each year the department goes through a Resource Planning exercise. This starts typically in January where the Dean's office will invite Business Managers to join the Dean's/Chairs bi-monthly meeting where instructions and direction is provided.

The collection of data and creation of the presentation will be the responsibility of the Business Manager. It will be necessary to work closely with the department chair and department leadership to complete this task.

You will also attend the Resource Planning meeting which typically takes place in March or April.

PHILANTHROPIES

When a check is received by the department, it is necessary to determine where the check should be deposited.

If the check is a reimbursement check for expenses, it can be deposited into the correct account by completing a blue "Brigham Young University Deposit" slip and take the check to the department deposit window on the main level of the ASB.

If it is determined that the check needs to be sent through Philanthropies, send the check, along with the envelope in a intraoffice envelope, above the student desk in the binder bin, to:

Rashelle Buchanan
Gift Entry
Bldg 308E
Philanthropies

Rashelle Buchanan email: rashelle@churchofjesuschrist.org
